

Paul Kyte joins Bristow & Sutor

Bristow & Sutor has added to its Client Development team and appointed Paul Kyte to lead the growth of its **Civil Parking Enforcement** operations. Paul will be joining Bristow & Sutor on Monday 5th January 2009

Paul's role will include client liaison and development in designated areas, support us with our increasing client base, assist us with cross selling into the existing client base and help identify new clients. Paul was previously a Traffic Management Engineer and Parking Manager at a Worcestershire Local Authority, and for the last 5 years provided consultancy services to Councils across the Midlands, the South-West England and South Wales, in a wide variety of parking issues, primarily with regards to the implementation of Civil Parking Enforcement, its operation and policy management.

Paul said, "We already have a solid client base of Parking Clients which has grown steadily over the past few years, and includes urban and rural councils, as well as countywide partnerships. I am aware that in 2008, new parking contracts included Birmingham City Council, Gloucestershire County Council, Leicestershire County Council, Warwick District Council and Wyre Forest District Council. In addition to building upon our existing Client base in 2009, we will look to enhance the existing recovery offering and introduce several added value services. Having previously been employed as a Parking Manager, I am only too aware of the challenges that face Local Authorities; I'm looking forward to working with the team, and developing an even stronger civil parking enforcement recovery department."

Andy Rose, Bristow & Sutor Managing Director added, "Paul is a welcome addition to the team. His local authority background and extensive civil parking enforcement experience will be a positive addition and of benefit to the company."
